Current

XPANSIV

SOMERVILLE, MA

Product Manager — Managed Solutions, Clean Transportation

- Introduced a bulk-upload tool to enable the reporting of EV charging usage data for multiple accounts in one report — data behind env. credit generation—cutting a manual task from 2–3 hours to under 30 mins (~80% reduction).
- Spearheaded the launch into New Mexico, a new U.S. state compliance market and unlocking new revenue stream.
- Launched the product area's first Voice-of-Customer program, mining Salesforce support cases to surface 42 recurring payment and banking issues and turn high support volume into a prioritized product backlog.
- Developed a client revenue-segmentation analysis linking \$326K in revenue to clients hitting workflow friction and showing the top 15 clients drive ~80% of revenue—reframing product issues as a retention risk.

STAPLES

FRAMINGHAM, MA

Product Manager — Order Management, Subscriptions (AutoRestock), and Lists

- Owned Staples' highest-revenue digital commerce programs driving ~\$1Bn in annualized revenue.
- Launched and A/B tested a "Buy It Again" CTA on Purchase History; the winning variant drove \$3.8M in incremental revenue, helping surpass the 2025 \$4M annual target two quarters ahead of schedule.
- Delivered a streamlined Purchase History experience that unified a fragmented repurchase flow, contributing \$2M in incremental revenue through improved user journeys.
- Improved Buy It Again search relevance, doubling Revenue per Visitor (RPV).
- Built product-performance dashboards tracking KPIs, cutting decision-making time ~60% and enabling real-time optimization across \$900M+ in revenue programs.
