JERICO MARION LUMANLAN

Boston, MA | (206) 334-7236 | jericol.jobs@gmail.com | www.jericolumanlan.com | linkedin.com/in/jerico-lumanlan

Product manager focused on AI-enabled, revenue-generating, and compliance software in climate tech and e-commerce. Delivered programs influencing ~$1B in annual revenue and $5.8M+ in incremental revenue, plus LCFS/EV credit and AI/ML solutions for enterprise and SMB customers.

EXPERIENCE

XPANSIV — Somerville, MA Dec 2025 – Present

Product Manager, Managed Solutions (Clean Transportation)

- Designed and launched a bulk-upload tool for multi-account EV-charging usage reporting, cutting manual effort from 2–3 hours to under 30 minutes (~80% reduction) and automating the data backbone of credit generation.
- Led the product's launch into New Mexico, a new U.S. state compliance market, unlocking a new revenue stream and expanding the platform's regulatory footprint.
- Pioneered the product area's first Voice-of-Customer program, mining Salesforce support cases to surface 42 recurring payment and banking issues and convert chronic support volume into a prioritized product backlog.
- Built a client revenue-segmentation business case linking $326K in revenue to clients hitting workflow friction — showing the top 15 clients drive ~80% of revenue and reframing product issues as a retention risk.
- Define requirements for scalable compliance-reporting infrastructure powering environmental credit generation (LCFS, EV credit programs) across multiple U.S. state and Canadian markets.

STAPLES — Framingham, MA Aug 2024 – Nov 2025

Product Manager, Order Management & Subscriptions (AutoRestock)

- Launched and A/B-tested a "Buy It Again" CTA on Purchase History; winning variant drove $3.8M in incremental revenue, beating the $4M annual target two quarters early.
- Delivered a streamlined Purchase History experience that unified a fragmented repurchase flow, contributing $2M in incremental revenue through improved user journeys.
- Improved Buy It Again search relevance, doubling revenue per visitor (RPV).
- Built product-performance dashboards tracking KPIs, cutting decision-making time ~60% and enabling real-time optimization across $900M+ in revenue programs.
- Owned roadmap, experimentation strategy, and KPI performance across AutoRestock (subscriptions), Lists, and Purchase History — Staples' highest-revenue digital commerce programs, driving ~$1B in annualized revenue.

PITNEY BOWES GLOBAL ECOMMERCE (NYSE: PBI) — Boston, MA Nov 2021 – Jul 2024

Product Manager, Returns Experience (B2B, Enterprise)

- Improved AI/ML-powered Returns Report prediction accuracy from 40% to 85% through data-quality and architectural enhancements, reducing client COGS ~8% and cutting where-is-my-return support calls by 45%.
- Migrated 200+ clients to Pitney Bowes' API, saving $0.5M annually while reducing support tickets by 70%.
- Led the cross-functional, end-to-end launch of the AI/ML Returns Report, partnering with data scientists and enterprise clients (REI, Nordstrom) to define requirements.
